

We are a small, US-based Internet business located in the Chicago area, providing jobs to Americans. All sales, customer support and shipping — in fact, all jobs — are right here in the US, not outsourced overseas.

What that means to you is easier communication, better customer service, and faster shipping times-in-transit.

When you buy from us, you'll get the personal attention and support you need, AND you'll feel proud that you are helping us support the American economy.

We're also one of the oldest and largest Lockey resellers online — we've been selling Lockey locks online since 1997 — longer than anyone else! We've sold over 6,000 locks to customers in the US and around the world.

We specialize in Lockey keypad (combination) entry door locks and accessories and we carry the full Lockey product line. We really know our products and want to help you find the right lock for you!

Our customers say we have the best quality products along with the most informative and easy-to-use website. And our customer service just can't be beat. At our low prices, that's a winning combination!

We have a variety of beautiful finishes and styles that look good in an office or at home. Our door locks are extremely simple to install and operate. You can change the combination yourself in just minutes! Our merchandise is brand new—no used, returned, or restocked items.

Here are some of the things we are known for:

- 100% Customer Satisfaction Guarantee for the first 30-days
- Free technical support
- Life-Time Warranties on all our keyless locks
- Full-line of lock accessories and parts
- Frequent FREE shipping offers
- Low, low prices on new merchandise

Warranties

We believe that our customers want products that will work reliably, as described, for many years. That's why we only carry high-quality items from reputable manufacturers/suppliers who stand behind their items with good, solid warranties.

Even though we do not provide the warranty, you are our customer. That means that we want you to be happy and treated fairly. Please keep us informed if you have trouble getting an item fixed, repaired or replaced that is under warranty. We certainly want to know about it and we may be able to help. After all, that's what we're here for.

Please click on the links below to view the policy for that manufacturer. If you are unsure what manufacturer your lock came from, you can look on the original order email we sent you or give us a call.
